

Resources for Parents

Dear Parents,

Here are some shortcuts to the websites that I will be using for online learning. I will also give you access to your child's passwords (although they should know how to log in to all of these websites). Please let me know if you have any questions or concerns. This link below is **very important**, this is how your child will log on to google. The password is their student ID/lunch number and their password is **asdf1234**.

https://docs.google.com/presentation/d/1qUYrJcSgJ5emVfriH0yGp6n-d8yq1sNRG4ec_wuyn_0/edit#slide=id.p

This link above is how you and your kiddo will access their **google classroom, docs and other resources**.

I will be using Raz Kids to assign reading lessons. Please follow these steps to login. Go to Tarver's website, click on classrooms, click on second grade, on the left hand side you will see literacy links click on that, click on raz-kids. The username is **kysebaert0** and your child's password is their name *Your child should know their login.
*If you find the reading material is too easy or difficult for independent reading for your kid, let me know and I can adjust their level.

[Class Dojo](#) I will use this for many things! Reading, math, science, social/emotional health, and more! This will be a place where I create assignments in the portfolio section and communicate with parents. This will also be a place where students can share their learning, take pictures of their learning, record themselves or just keep in touch with me! This is also a great way to keep in touch. I can reset their dojo points and give them participation points for turning in assignments, and if they are not responding well to you, contact me and we can video chat. My class code for students to connect is

Go to student log in or Dojo.me the class code AWV EHV

It is good for 48 hours and you do not need a different one if you don't log out.

- **I will keep my dojo hours available from 7:30am-3:30pm for students to message me with questions they may have. I can usually answer questions quickly any time, but I will keep office hours from 7:30-8:30, 2:30-3:30, and 6:30-7:00. I will be available then for immediate feedback.**
- **Parents, Class Dojo will be the best way to reach me, if you have questions**

(page one of two)

[Prodigy](#) This website will be used for math. You can click on the link or follow these steps to login.

How to login-Go to Tarver's website, click on classrooms, click on second grade, on the left hand side you will see math links, click on that, click on prodigy. Your child's password should

be on the inside of their planner. If you can't find it please let me know. Again, your child should know their login.

Please message me if your child can't find or remember their lag in and or password. I will send you a new one.

[Spelling City Student](#) Student log in is their first name and yyy

The password is their first name. Students should know how to use this. There are 5 lessons assigned for prefixes. Please be positive and encouraging if your child needs help. This is a new and difficult concept for most students.

[Scholastic News](#) This is another resource for reading. I may assign your kiddo to read an article from here and respond to some comprehension questions through google classroom. My classroom code to login is **Farfel2**. Your child may need help with this because they have not accessed this independently yet.

Students should click on the speaker/Read aloud button on top, to have it read to them.

[Mystery Science](#) Do NOT try to log in yet. I may use this website for science lessons. I will most likely send a link to the lesson through Google Classroom or Class Dojo.

My internet can be tricky in the mountains. Please let me know if it is NOT okay to call you with answers to questions if my internet temporarily goes down and it seems important.
